RELOADING SEMINAR

Sunday, June 30

10:00 - 2:00

Bonfield Classroom

Presented by Forster Products and the ISRA F Class League

Whether you are new to reloading or a seasoned competitor, there is something for everyone. You may require accuracy of a couple of inches for hunting applications or quarter minute-of-angle for benchrest competition. This seminar will show you the hardware and processes that will get you to where you want to be or give you ideas to refine your already-established process. We will also introduce you to tools to make your reloading more rewarding.

Forster has offered to provide a 10% discount on their products as well as on AMP annealers and tools to seminar participants. If you order prior to the seminar they will bring the products to eliminate shipping costs. See <https://www.forsterproducts.com/>

A light lunch will be served.

The seminar is free, but seating is limited so enroll now to ensure a seat by calling the ISRA office at **815.635.3196** or by emailing mel.hitchens@isra.org
